

*As a Tiger Mountain Pilot I pledge allegiance to our Code of Honor:*

*My mission is to show the utmost courtesy to local and visiting pilots, and rush to assist damsels in distress.*

*The launches and landing areas are the domain of all. We enjoy equal access to common areas, and show respect for established preferences.*

*I show consideration on launch by avoiding undue delay to others. Ditherers, we are not.*

*I will top land only when the launch is clear, yielding to other swashbucklers swooping through the air.*

*“All for one sky, and one sky for all.”*
